

The Biomedicine Abbreviated Content Outline

(Effective February 1, 2014)

Note to Candidate: This document serves as a guide to assist in examination preparation for candidates who have met NCCAOM eligibility requirements. Below is the content outline for the Biomedicine module.

Please note: In regards to Clean Needle Technique (CNT), the Biomedicine module focuses on universal precautions and emergency situations in comparison to the Acupuncture with Point Location module which focuses on actual needling and its emergencies (e.g., needle angle and depth).

DOMAIN I: Biomedical Model (90% of Total Exam)

A. Clinical Application of Biomedical Sciences (including anatomy, physiology, pathology, pathophysiology, etc.), Pharmacology, and Nutrients and Supplements **(30%)**

1. Biomedical sciences
2. Pharmacology
3. Nutrients and supplements

B. Patient History and Physical Examination **(25%)**

Understand clinically relevant information gathered through history taking and physical examination.

Candidates are expected to understand all aspects of the physical examination process.

They are not expected to be able to perform all aspects of the physical examination themselves.

1. Patient history*
2. Physical examination
 - a. General systems examination (e.g., vital signs, pulmonary, cardiovascular, gastrointestinal, integumentary, etc.)
 - b. Musculoskeletal examination
 - c. Neurological examination

3. Imaging, laboratory tests, and other medical studies

- a. Imaging
- b. Laboratory tests
- c. Other medical studies

C. Clinical Assessment Process **(30%)**

Interpret clinically significant information gathered during history taking and physical examination to recognize pathological conditions. **(Refer to Appendix C: Medical Conditions)**

D. Clinical Decision-Making and Standard of Care **(5%)**

Analyze information to determine appropriate patient management.

DOMAIN II: Office Safety and Professional Responsibilities (10% of Total Exam)

Recognize and implement appropriate office safety standards and demonstrate knowledge of professional responsibilities.

A. Risk Management and Office Safety

B. Infection Control

C. Federal Regulations

D. Reporting and Record-Keeping

E. Ethics and Professionalism

Appendix A: Pharmaceuticals

Appendix A is a list of commonly used pharmaceutical categories. The exam will focus on but may not be exclusively limited to the list below.

- allergy/sinus medications
- angina medications
- antiasthmatic medications
- antibacterial medications
- anticancer medications
- anticoagulant medications
- antidepressants
- antidiabetic medications
- antidiarrheal medications
- antifungal medications
- antihyperlipidemic medications
- antihypertension medications
- antinausea medications
- anti-Parkinson medications
- antiprotozoal medications
- antipsychotics
- antiseizure medications
- antiviral medications
- appetite control/weight management medications
- cardiac medications
- central nervous system (CNS) stimulants/attention deficit medications
- cough medications
- drugs of abuse
- gastrointestinal medications
- hormonal replacement therapy
- immune modulators
- mood stabilizer medications
- non-steroidal anti-inflammatory drugs (NSAIDs)
- opioids
- osteoporosis medications
- sedatives, anxiolytic and sleep medications
- sexual dysfunction medications
- smoking cessation medications
- steroids
- stool softeners/laxatives
- thyroid medications
- topical skin medications

Appendix B: Nutrients and Supplements

Appendix B is a list of commonly used nutrients and supplements. The exam will focus on but may not be exclusively limited to the list below.

- amino acids (e.g., L-glutamine, lysine, choline)
- antioxidants (e.g., coenzyme Q10, selenium)
- bone health (e.g., glucosamine sulfate, chondroitin sulfate)
- digestive support (e.g., enzymes, fiber, probiotics)
- hormones (e.g., melatonin, wild yams, DHEA)
- minerals (e.g., calcium, magnesium, potassium)
- mood support (e.g., St. John's Wort, Sam E, 5 HTP)
- vitamins (e.g., A, B1-B12, C, D, E, K)
- Western herbs (e.g., saw palmetto, milk thistle)

Appendix C: Medical Conditions

The conditions (not system headings) listed below are categorized based on how frequently AOM practitioners reported seeing them in the clinical setting per the 2013 Job Analysis. This list is meant to serve as a study guide for the NCCAOM Biomedicine Examination Module to help prioritize focus of study. The exam will focus on but may not be exclusively limited to the conditions below.

The conditions marked with an asterisk (*) signify diseases commonly associated with **red flag signs and/or symptoms**. Candidates are strongly advised to familiarize themselves with these conditions and the red flag signs and symptoms associated with them.

CATEGORY 1 Frequently Seen Conditions

Cardiovascular

- *Arrhythmias (e.g., atrial fibrillation, premature ventricular contraction, tachycardia, bradycardia)
- *Blood pressure disorders (hypertension and hypotension)
- Atherosclerosis (e.g., coronary artery disease, peripheral vascular disease)

Endocrine and Metabolic conditions

- Thyroid disorders (e.g., Hashimoto's thyroiditis, Graves' disease)
- Pancreatic disorders (e.g., diabetes)
- Obesity
- Hyperlipidemia

Gastrointestinal conditions

- Gastroesophageal reflux disease
- Gastritis
- Inflammatory bowel disease (e.g., Crohn's disease, ulcerative colitis)
- Food sensitivity/allergies (e.g., celiac disease, lactose intolerance)
- Irritable bowel syndrome

Mental and Behavioral conditions

- *Mood disorders (e.g., depression, bipolar)
- Anxiety

Musculoskeletal conditions

- Affecting upper extremities (e.g., frozen shoulder, bicipital tendinitis, carpal tunnel syndrome, epicondylitis)
- Affecting lower extremities (e.g., meniscal injuries, compartment syndrome, bursitis)
- Affecting the axial structures (e.g., whiplash, disc herniation, spinal stenosis, spondylolisthesis, TMJ)
- Osteoarthritis
- Osteoporosis

Neurological conditions

- *Stroke
- *Radiculopathies (e.g., nerve root, sciatica)
- Peripheral neuropathy
- Headache (e.g., cluster, tension, migraine, sinus, trauma)
- Sleep disorders (narcolepsy, sleep apnea, insomnia)

Pulmonary conditions

- Asthma
- Respiratory tract infections (e.g., sinusitis, viral infections, strep throat, bronchitis, pneumonia)
- Allergies
- *Pneumothorax

Reproductive conditions

- Menstrual
- Infertility (e.g., polycystic ovarian syndrome, endometriosis)
- Menopause

Miscellaneous

- Multi-system conditions (Lyme disease, chronic fatigue, fibromyalgia, temporal arteritis)

CATEGORY 2 Moderately Seen Conditions

Cardiovascular

- *Myocardial infarction
- *Angina pectoris
- *Heart failure
- *Deep vein thrombosis
- Raynaud's disease
- *Aneurysms

Dermatological conditions

- Noncontagious skin conditions (cellulitis, shingles, acne, eczema, psoriasis, alopecia)

Gastrointestinal conditions

- Peptic ulcer (e.g., H. pylori, Campylobacter)
- *Diverticular disease (e.g., diverticulosis, diverticulitis)
- Hemorrhoids
- Gallbladder conditions (e.g., cholelithiasis, cholecystitis)

Hematological conditions

- Anemia
- Bleeding disorders

Infectious Disease

- Sexually transmitted infections
- Tuberculosis

- *Viral infections (e.g., infectious mononucleosis, influenza, meningitis, conjunctivitis)

Mental and Behavioral conditions

- Attention deficit disorder (ADD)/Attention deficit hyperactivity disorder (ADHD)
- Post-traumatic stress disorder (PTSD)

Neurological conditions

- *Transient ischemic attack (TIA)
- Parkinson's disease
- *Vertigo
- Bell's palsy
- Trigeminal neuralgia
- *Concussion and traumatic brain injury (TBI)

Pulmonary conditions

- Chronic obstructive pulmonary disease

Reproductive conditions

- Uterine (fibroids and bleeding)

Miscellaneous

- Autoimmune disorders [systemic lupus erythematosus (SLE), rheumatoid arthritis (RA)]

CATEGORY 3 Least Frequently Seen Conditions

Dermatological conditions

- *Contagious skin conditions (lice, fungal infections, scabies)
- *Skin cancers (e.g., basal cell, squamous cell, melanoma)
- Burns

Endocrine and Metabolic conditions

- Adrenal disorders (e.g., Cushing's, Addison's)

Gastrointestinal conditions

- *Appendicitis
- Hepatitis
- Cirrhosis
- *Pancreatitis

Hematological conditions

- Leukemia/lymphoma
- Hemochromatosis

Infectious Disease

- *Bacterial infections (e.g., staph, MRSA, impetigo, meningitis)
- Childhood infectious conditions (measles, mumps, rubella, pertussis)
- Parasitic infections
- Foodborne illness

Mental and Behavioral conditions

- Autism spectrum
- *Suicidality
- *Eating disorders (anorexia nervosa, bulimia nervosa)

Neurological conditions

- Multiple sclerosis (MS)
- Dementia (e.g., Alzheimer's disease)
- Epilepsy

*Oncology (lung, stomach, colon, pancreas, breast, prostate, uterine, bone, liver, cervical)

Ophthalmology/ENT

Reproductive conditions

- *Complications related to pregnancy
- Breast conditions (e.g., mass, mastitis)
- Male Infertility
- Erectile dysfunction (ED)
- Prostate conditions (benign prostatic hyperplasia, prostatitis)

Urinary/Renal conditions

- *Kidney Stones
- *Infections (UTI, cystitis, pyelonephritis)
- Incontinence

Biomedicine Bibliography

The Content Outline is the primary resource for studying for this examination. The purpose of this Bibliography is only to provide the candidate with suggested resources to utilize in preparation for the examination. Candidates should feel free to consider other resources that cover the material in the Content Outline.

There is no single text recommended by NCCAOM. All NCCAOM modules and examinations reflect practice in the United States as determined by the most recent job analysis.

NCCAOM's item writers and examination development committee members frequently use the following texts as resources; however, the sources used are not limited to the books listed here. The NCCAOM® does not endorse any third-party study/preparation guide.
