NCCAOM Recertification Philosophy

Achieving NCCAOM certification demonstrates the mastery of specific core competencies and confirms the knowledge, skills, and abilities that provide for safety and trust of the public within a professional practice. Therefore, the focus of NCCAOM recertification is to maintain the core competencies and advance the professional growth and development of the Diplomate to assure the credentialed practitioner is integral to healthcare and accessible to all members of the public.

The goal of NCCAOM’s recertification program is to foster life-long learning while emphasizing safe and ethical performance in critical job functions. Recertification is also designed to encourage ongoing professional development which assists Diplomates in staying current with evolving technology, healthcare trends, and advances in the acupuncture and herbal medicine (AHM) profession. Diplomates are expected to engage in activities that foster a holistic approach to patient care grounded in the foundation of acupuncture and herbal medicine practice.

To that end, the Professional Development Activity or “PDA” program was created to provide an avenue for NCCAOM Diplomates to earn “PDA Points” (continuing education units [CEUs]) for participating in recognized programs that apply toward NCCAOM recertification requirements. In turn, the NCCAOM PDA Department partners with individuals and organizations to provide these quality education programs.

Tracking the Growth of the AHM Profession by Surveying NCCAOM Diplomates

The NCCAOM recognizes that the AHM profession is a unique and vital health profession and is committed, on behalf of its Diplomates, to collect demographic and practice-setting information. To achieve this goal, Diplomates are asked to complete the *NCCAOM® Diplomate Demographic Survey* that is distributed at the completion of the recertification process. The aggregate data collected from this survey is used for several important initiatives. This data is needed to communicate demographic and clinical practice characteristics to government agencies and other professional organizations to advance the AHM profession.

Checklist of Recertification Policies

- An Active Diplomate’s NCCAOM ‘expiration date’ is exactly four years from their prior certification date. Sixty (60) PDA points must be earned during the four-year period immediately preceding the certification expiration date.
- Diplomates are responsible for completing the continuing education requirements and the timely submission of the *NCCAOM® Application for Recertification*.
- Diplomates should submit their recertification application at least 4 to 6 weeks before their NCCAOM certification expires.
- Applications may be submitted up to one (1) year early. However:
 - 1) the expiration date of the certification is not altered, and
 - 2) the PDA pts/ CEUs earned during the early application time frame may not be applied to the next, four-year recertification application.
- Diplomates who do not renew their NCCAOM Certification by the expiration date are automatically moved to ‘Lapsed’ status and forfeit all NCCAOM benefits.
- PDA or continuing education courses must be completed exactly within the four (4)-year recertification cycle; from the prior certification date to the future expiration date.

- To be accepted for NCCAOM recertification, a certificate of completion must include the Diplomate’s name, course title, course completion date, the number of points/ hours completed and the PDA Provider’s signature.
- The official *NCCAOM® PDA Certificate of Completion* (NCCAOM branded) is the only certificate accepted for NCCAOM PDA approved courses. It is the Diplomates’ responsibility to make sure they register for PDA Approved course(s) with their First name, Last name, and the NCCAOM ID# as reflected in the Diplomate’s online NCCAOM certification account. The Certificate of Completion for NCCAOM PDA approved courses must be issued by the PDA provider on the NCCAOM branded template.

- Both, the wall-mount NCCAOM certificate and wallet ID card are sent by USPS mail to the Diplomate and delivered within 4 to 6 weeks after the receipt of the recertification confirmation e-mail notice. This time may vary greatly for international deliveries.
- Certificates of completion for all international coursework events must state that a third-party has reviewed and approved the course content and supporting documentation.
- Courses may be presented in another language; however, all documents of completion must be submitted in English.

- Continuing education units (CEUs) are called PDA points. One (1) PDA point is equal to one (1) hour of active, instructor-led learning or participation in a professional activity. Therefore, no more than 24 PDA/CEUs will be accepted for credit during a 24 hour period.
- Submitting the ‘same course’ twice in one (1) four (4)-year recertification cycle is not allowed. ‘Same course’ is defined as having an identical course title, number of PDA points/hours of participation, and the same instructor.
- Courses that are audited cannot be submitted for recertification credit.
- Coursework or professional activities may not be rolled over to the next recertification cycle for any reason.
- Pre-approval of coursework is not available.
- Recertification staff will contact the Diplomate if the recertification documentation has errors in the recertification category or PDA point designation. A maximum of six (6) weeks will be allowed for the Diplomate to resolve the error.
- A recertification application that is lacking any portion of the required 60 PDA pts/CEUs documentation six (6) weeks from the recertification application submission date will be canceled.
- The recertification fee is paid at the time the application is submitted. The fee is non-refundable and payable by a Visa, MasterCard or American Express credit card. Checks are not accepted.

5. NCCAOM staff will communicate the decision in writing to the person within 30 days of the receipt of the request.

How to Petition an NCCAOM Staff Decision
